

**R. W. HAMPTON PRESENTS:**

# *Oklahoma* . . . **WHERE THE WEST REMAINS!**

To tell the story of Oklahoma is to tell the story of America with all its triumphs, trials, victories and tears. Within this glorious story, we find and embrace all the best of what we are as Americans. We also see the mistakes we've made as cultures collide in a new frontier.

The story of Oklahoma is the timeless story of Americans moving west, searching for a home they've seen only in their dreams and armed only with their guts, determination and faith! The story of Oklahoma is an inspiring story of Americans overcoming great adversity. Whether on the "Trail of Tears," the dust bowl days of the "Dirty thirty's" or rising up out of the wreckage and ruin of nature's worst and man's hate.

The story of Oklahoma is a beautiful story because it's your story and my story. It's still being written by you and me today, and blank pages are waiting to be filled by our sons and daughters and future generations as well.

The story of Oklahoma is the story of the West. You can feel the spirit of the West and all that it embodies on the Oklahoma wind. When you stand in her big empty spaces you know you are not alone because you are standing in God Almighty's handprint, and you see and feel the beauty, the same beauty our Red Brothers experienced.

Oklahoma is a place where the old West, new West, and future West coexist seamlessly. Oklahoma is the story of the West that although has evolved, has never died and never will.

This is the story of Oklahoma, Where the West Remains, and I am most blessed to be part of the telling.
